## Volunteer for Wildlife with the Lake Village Wildlife Habitat

Thank you for your interest in becoming a volunteer with Lake Village Wildlife Habitat program. Our program is based on protecting wildlife and its habitats through education, inspiration, advocacy, and action. There are many opportunities throughout the year where you can join your neighbors to ensure our Adult Wildlife Habitat and Kids Wildlife Habitat Club are successful. Whether your skills come from a wildlife or environmental science background, or you just like to get outdoors to get your hands dirty with habitat improvements, we think you'll find a volunteer project to satisfy your interest and help make Lake Village a better place for our wildlife. For every nook and cranny in our wildlife habitat, there are animals and plants that call it home. Just as we do, animals need food, fresh water, room to roam, and places of refuge. Conserving and revitalizing wildlife habitat ensures both animals and humans have a healthier future ahead.

Upon completing the Volunteer Application below, e-mail to Stephanie Biggs, Keystone Pacific at sbiggskeystonepacific.com.. We will contact you quickly.
